

- Admin is associated with Department, Management and COE. One admin manages Management, COE and many departments in college.
- Department is associated with Employee, Student and Course. Department has many employee, many students and offers many courses.
- Employee class is generalized into non-teaching staff and faculty. Faculty is self associated.
- Because the class cannot exist without courses, class is composed inside courses.
- Exam is associated with COE. One COE manages many exams.
- Exam is generalized into SEE and Internals as they use all the attributes of Exam.
